## Sacre Coeur Basilica

The **Basilica of the Sacred Heart of Paris**, commonly known as **Sacré-Cœur Basilica** and often simply Sacré-Cœur (French: *Basilique du Sacré-Cœur*), is a Roman Catholic church and minor basilica, dedicated to the Sacred Heart of Jesus, in Paris, France. A popular landmark, the basilica is located at the summit of the butte Montmartre, the highest point in the city. Sacré-Cœur is a double monument, political and cultural, both a national penance for the defeat of France in the 1870 Franco-Prussian War and the socialist Paris Commune of 1871[1] crowning its most rebellious neighborhood, and an embodiment of

conservative moral order, publicly dedicated to the Sacred Heart of Jesus, which was an increasingly popular vision of a loving and sympathetic Christ.

## Louvre Museum (closed on Tuesdays):

The **Louvre Palace** (French: *Palais du Louvre*), is a former royal palace located on the Right Bank of the Seine in Paris, between the Tuileries Gardens and the church of Saint-Germain l'Auxerrois. Originally a fortress built in the medieval period, it became a royal palace in the fourteenth century under Charles V and was used from time to time by the kings of France as their main Paris residence. Its present structure has evolved in stages since the 16th century. In 1793 part of the Louvre became a public museum, now the Musée du Louvre,

which has expanded to occupy most of the building.

### Day 3, Tuesday, August 7<sup>th</sup>, 2018

## **Full day tour to Versailles and Eiffel Tower Château de Versailles:**

The Palace of Versailles (French: *Château de Versailles*, simply Versailles) is a royal château in Versailles in the Île-de-France region of France. It is now open as a museum and is a very popular

tourist attraction. When the château was built, the community of Versailles was a small village dating from the 11th century. Today, however, it is a wealthy suburb of Paris, some 20 kilometres (12 mi) southwest of the centre of the French capital.

## **Eiffel Tower:**

The **Eiffel Tower** is a wrought iron lattice tower on the Champ de Mars in Paris, France. It is named after the engineer Gustave Eiffel, whose company designed and built the tower.

Constructed from 1887–89 as the entrance to the 1889 World's Fair, it was initially criticized by some of France's leading artists and intellectuals for its design, but it has become a global cultural icon of France and one of the most recognisable structures in the world.[3] The Eiffel Tower is the most-visited paid monument in the world; 6.91 million people ascended it in 2015.
